

Agreement on fees for using the AIB Hub for trading **electricity GOs** in accordance with point 10 of the Standard Terms and Conditions (STCs)

Year 2024

The Association of Issuing Bodies (AIB) enables cross-border trade in GOs by using the AIB Hub as technical interface. E-Control is appointed as Issuing Body for electricity GOs in accordance with § 81 (1) EAG.

In the interest of Austrian market participants, E-Control is member of this system. All fees and charges payable by E-Control for using the AIB-Hub are charged to the Austrian market players that participate in it.

The AIB membership fee is based on the category of member country, which is determined by the activity level per scheme (2 schemes are connected: electricity and gas): the number of certificates per scheme that the country has imported plus those exported during the previous year. The membership categories are small, medium large.

Activity (import/export)	Membership category	Membership fee
Up to 4 TWh	Small	€ 6.300,00
From 4 TWh to 8 TWh	Medium	€ 38.100,00
More than 8 TWh	Large	€ 81.800,00

Austria is classified as large member for the electricity scheme in 2024. The annual fee is € 81.800,00.

The fee will be allocated to all market players that have signed the STCs in relation to their transactions (imports and exports per market participant). Invoicing takes place annually. Invoices are payable within 30 days of receipt by the market players. E-Control reserves the right to charge any changes that AIB makes to the financing model on to market players in line with the principles described above.
